

A Custom Song for the Father of the Bride

You've been there for every milestone. Now, as she walks down the aisle, give her the gift that no florist, caterer, or photographer can — a song written just for the two of you. VOWSOME creates original, personalized father-daughter wedding songs by a real singer/songwriter, capturing your memories, your bond, and your love in music she'll treasure forever.

HOW IT WORKS

1

Tell Us Your Story

Share your memories, how she grew up, the moments that matter most.

2

We Craft Your Song

Sandy writes original lyrics and melody built around your story — no two songs are alike.

3

Refine Together

Review and collaborate on revisions until every word feels exactly right.

4

Yours Forever

Receive your final recording and optional keepsakes. Exclusively yours — never reused.

ADD-ONS
